“Extending a period property with great care.”

When carrying out extensions and improvements to period buildings a great deal of care must be taken.

This beautiful home situated in a private rural location already offered fabulous views over rolling countryside and much more besides.

We produced designs that extended the property from 340m² to 590m² in the style of the original period building. We also added outbuildings, an indoor pool and carried out considerable work in the garden.

The outcome? A spacious, high-specification executive home featuring modern amenities and a high quality finish, adding value to this most elegant of buildings.
